SECTION A - SUPPLEMENTAL INFORMATION
Executive Summary:

1. This solicitation will result in an award of a 3 year, long-term, Firm Fixed Price, Requirements contract. This procurement is a 100% Set-Aside for Small Business.

2. This procurement is for the following items:

Tube Structural	NSN: 4710-01-371-7293	Part Number: 7551385
Clamp, Towbar	NSN: 4910-00-624-0552	Part Number: 7551069

3. The contract will include three ordering periods. The quantity ordering ranges, on the pricing spreadsheet at attachment 001, are provided solely for the purpose of establishing reasonable ranges of quantities against which to provide prices, and to establish ordering limitations (see clause 52.216-19, Ordering Limitations).

4. The stated minimum ordering range quantities are not guaranteed buy quantities. An award under this solicitation in no way obligates the Government to order the stated minimum or maximum quantities (see clause 52.216-21, Requirements). Each order stands on its own insofar as it obligates the Government.

5. The stated maximum ordering range quantities are established as specific limitations on the ordering authority of the Government. In no instance will the Government place orders in excess of the maximum ordering range quantity stated for each pricing period.

6. The estimated ordering quantities are set forth below. These quantities reflect the Government's best estimate of actual projected requirements which may be ordered under this solicitation. This estimate is based on a combination of order history, actual orders on hand, and projected demands.

A-1 HQ, DA NOTICE TO OFFERORS - USE OF CLASS I OZONE-DEPLETING SUBSTANCES JUL/1993

(a) In accordance with Section 326 of P.L. 102-484, the Government is prohibited from awarding any contract which includes a specification or standard that requires the use of a Class I ozone-depleting substance (ODS) identified in Section 602(a) of the Clean Air Act, 42 U.S.C. 7671a(a), or that can be met only through the use of such a substance unless such use has been approved, on an individual basis, by a senior acquisition official who determines that there is no suitable substitute available.

(b) To comply with this statute, the Government has conducted a best efforts screening of the specifications and standards associated with this acquisition to determine whether they contain any ODS requirements. To the extent that ODS requirements were revealed by this review they are identified in Section C with the disposition determined in each case.

(c) If offerors possess any special knowledge about any other ODSs required directly or indirectly at any level of contract performance, the U.S. Army would appreciate if such information was surfaced to the Contracting Officer for appropriate action. To preclude delay to the procurement, offerors should provide any information in accordance with FAR 52.214-6 or 52.215-14 as soon as possible after release of the solicitation and prior to the submission of offers to the extent practicable. It should be understood that there is no obligation on offerors to comply with this request and that no compensation can be provided for doing so.

INSTRUCTIONS REGARDING SUBSTITUTIONS FOR MILITARY AND FEDERAL SPECIFICATIONS AND STANDARDS

DEC/1997

(a) Section I of this document contains DFARS clause 252.211-7005, Substitutions for Military Specifications and Standards, which allows bidders/quoters/offerors to propose Management Council approved Single Process Initiatives (SPIs) in their bids/quotes/offers, in lieu of military or Federal specifications and standards cited in this solicitation.

(b) An offeror proposing to use an SPI process under this solicitation shall identify the following for each proposed SPI as required by DFARS 252.211-7005 contained in Section I:

SPI	MILITARY/FEDERAL SPEC/STANDARD	LOCATION OF REQUIREMENT	FACILITY	ACO

(c) An offeror proposing to use an SPI process under this solicitation shall also provide a copy of the Department of Defense acceptance for each SPI process proposed.

(d) In the event an offeror does not identify any SPI in paragraph (b) above, the Government shall conclude that the bidder/quoter/offeror submits its bid/quote/proposal in accordance with the requirements of this solicitation.

(e) The price that is provided by the offeror in the Schedule in Section B will be considered as follows:

- (1) If an SPI is identified in paragraph (b) above, the Government will presume that the price is predicated on the use of the proposed SPI.
- (2) If there is no SPI identified in paragraph (b) above, the Government will presume the price is predicated on the requirements as stated in the solicitation.

(f) Bidders/quoters/offerors are cautioned that there is always the possibility that the Government could make a determination at the Head of the Contracting (HCA)/Program Executive Officer (PEO) level that the proposed SPI is not acceptable for this procurement. If such a determination is made, and the bid/quote/offer only identifies a price predicated on use of proposed SPI, the bid/quote/offer will be determined nonresponsive. Bidders/quoters/offerors who propose SPI processes are encouraged to provide a price below to reflect their price for the item manufactured in accordance with the requirements as stated in this solicitation to preclude possibly being determined nonresponsive:

SECTION L - INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

Instructions to Offerors:

Proposals in response to this procurement are to be submitted in electronic format. Hard copy bids will not be accepted. However, the Weld Sample as described below and the Weld Procedure Specification shall be submitted in hard copy to TACOM-Rock Island, AMSTA-LC-CTTE, Attn: Linda Hultman, Rock Island, Illinois, 61299-7630.

Technical:

As Part of the proposal, all offerors, except Hunter Manufacturing Company, the current producer under TACOM-Rock Island contract DAAE20-99-D-0032, shall deliver to the Government the following items:

The offeror shall submit a sample weldment (test specimen) conforming to the weld sample drawing (attachment 002). The weldment shall be representative of the offeror's ability to produce complete joint penetration welds for tubular connection. The configuration depicted on the weld sample drawing is similar to the most difficult weld required for fabrication of the towbar. The sample weld shall display full penetration and complete fusion with a convex, uniform, and smooth surface contour. The sample weldment shall be cut to display the cross section depicted in the drawing. Both halves of the sample weldment shall be prepared for macro tech examination. A suitable solution shall be used for etching the finished surfaces to give a clear definition of the weld. The finished and etched surfaces shall be coated with clear lacquer to preserve them from corrosion. Both halves of the sectioned sample weldment shall be submitted to the Government as part of the proposal.

The Offeror shall submit a written Weld Procedure Specification detailing the process used to produce the sample weldment. The offeror may submit the weld procedure on ANSI/AWS D1.1-96 Form E-1, or in any other printed format containing the equivalent information.

The Government will use the above items to assess the offeror's capability to produce acceptable weldments. The sample weldment and Welding Procedure Specification will be examined in accordance with criteria provided in ANSI/AWS D1.1-96, Structural Welding Code-Steel (see section M).

The Government wishes to draw the offeror's attention to the provisions of Army Drawing 7551385. This drawing requires the successful offeror to obtain Government approval of test specimens and Weld Procedures Specifications for each specific welded joint configuration before starting production. The sample weldment required as part of the proposal is intended as a demonstration of basic capability only and does not replace or modify the drawing requirements in any way.

The offeror is advised that experiments conducted at Rock Island Arsenal, as well as experience of previous contractors, indicates it is extremely difficult to obtain consistently good welds on the towbar with single-pass welding procedures. Due to the high rejection and rework rate associated with single-pass operations, multi-pass operations have been found more economical for the contractors. In addition, because of the relatively large mass of the casts or forged fittings in comparison to the tubing, it has been found advisable to pre-heat the joint to a temperature of 400-500 degrees Fahrenheit.

Delivery: The weld sample and Weld Procedures Specification described above shall be sent concurrently with the offeror's proposal to TACOM-Rock Island, AMSTA-LC-CTTE, Attn: Linda Hultman, Rock Island, Illinois 61299-7630.

Price

For each CLIN, the offeror's shall mark all unit prices for each pricing range and for each pricing period in the corresponding boxes on the pricing spreadsheet (attachment 001). Proposals offering prices for less than all three pricing periods will not be considered. Proposals offering prices for quantities other than those solicited will not be considered.

Price

The area of price shall be evaluated to determine the total evaluated price to the Government and the reasonableness of the proposed price.

For purposes of evaluation, the proposed unit prices for each quantity order range will be multiplied by the weight and the minimum order quantity of the range to determine a weighted price. The evaluated price for each pricing period will be the sum of the weighted prices for all quantity order ranges. The evaluated CLIN price is the sum of the evaluated prices for all pricing periods. A total evaluated price will be determined by adding the evaluated CLIN prices, and any other price related evaluation factor required by the solicitation.

Reasonableness of Price: All available resources may be used in determining price reasonableness, including the Defense Contract Audit Agency. Any proposal that is unrealistically high or low in price will be deemed indicative of a failure to comprehend the Government's requirements and may be rejected for such a reason.
